

FRANCO REYES

Full Stack Developer

About Me

Full stack developer with 2 years of experience, I prioritize writing clean, efficient, and minimalist code. I am highly adaptable and always ready to learn and utilize the best tools available for each project. Additionally, I am highly self-taught and curious, which allows me to acquire new skills easily. Committed to delivering high-quality results in every project.

Professional Experience

Full Stack Developer - Gautama Prices

RPM Motos | Buenos Aires, Argentina | 2024

Project: Automated price updates from multiple suppliers, integrated with Contabilium ERP for inventory and invoicing management.

Technologies Used: Node.js, Next.js, TypeScript, React, Dexie.js, Material UI, Lodash

Achievements:

- Reduced task completion time from several days (4 employees) to a few hours (1 employee).
- Implemented continuous price updates, improving sales performance.
- Eliminated infrastructure costs by using a serverless frontend approach.
- Simplified the task to just 4 buttons, maximizing user efficiency.

Full Stack Developer - Zpl Labels

RPM Motos | Buenos Aires, Argentina | 2023

Project: Automate the generation and printing of ZPL labels from the application on a local server, integrated with CUPS.

Technologies Used: Node.js, Next.js, TypeScript, React, ZPL, CUPS

Achievements: Optimized product labeling process, reducing errors and processing time.
